

Dear Students,

I hope that you and your families are well and safe ! Although I miss each of you, we will have to finish up the semester online due to the Corona Virus.

I have created a website for your Science Assignments. This is the Link

<https://sites.google.com/view/scienceclassroom-drkommander/home>

- 1) Please bookmark this page.
- 2) Please sign up with your email

Biology:

There are two chapters left in Biology which we can finish this month. They are called "Ecology" and "Cell Reproduction". We will begin with Ecology. Your tasks are listed in order.

For all classes: Carla has and will be distributing the assignment packets. If you loose an assignment or have questions, please email me at kkommander@walatowahcs.org. You can also write down the answers to the questions on paper. Please give all your completed work to Carla (cgachupin@walatowahcs.org) as she will be collecting your work. Questions? please contact me using the comment section on this science classroom page.

Please stay in touch and follow all the safety guidelines.

Wishing you the Best,

Dr. Kommander
